

R SERIES

Roller Blind & Awning Cutting Table

The R3500 and R3700 cut fast with good edge quality. They are suited to all fabrics and cutting needs. It is suited to fast easy cutting of fabrics, curtains, insect mesh, upholstery, most PVC materials and even solid printable media. A full width backstop runs parallel to the cut line ensuring all pieces are cut perfectly square.

Standard Features

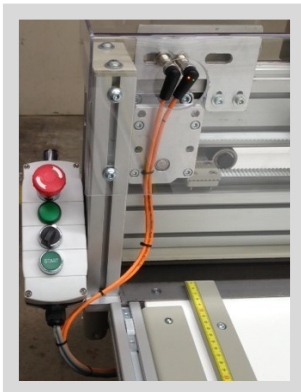

- Special shearing action cuts one or more layers
- Very straight cuts with no skips across weave
- Cuts in either direction with one finger effort
- Easy to operate and get a great result
- Design allows a 1mm trim cut on fabrics
- Built strong so 2.5 ton can be stored under
- Long blade life—up to a year for low volumes
- Full width backstop with spring loaded stop
- Accuracy and squareness are guaranteed
- Magnifier on tape eliminates reading errors
- Laminated Structural boards—stability
- Heavy duty powder coated frames
- Stainless steel in feed and fabric rollers
- Fabric glides easily over dimpled laminate
- Almost no maintenance required
